Routing Configuration

Configure org-level routing rules. These are used as a fallback when no per-account stakeholders are set in Stakeholder Mapping.

Vertical Routing Region Sales

Region -> Sales Person Mapping

Map each sales territory to the responsible sales stakeholder. Mark a person as Copy All to include them on every workflow regardless of region.

Region Name must match the Region value on the Account (e.g. EMEA, US, APAC). Copy All users are always included on every workflow regardless of region.
